

DEAR COLLEAGUES!

We would like to inform you that in accordance with the plan of scientific and practical events of the Russian Federation Ministry of Health

International Congress OSTEOPATHY OPEN 2019

«MODERN APPROACHES TO RESTORATION AND PRESERVATION OF HEALTH : INTERDISCIPLINARY DIALOGUE»

will take place on **June 14—16th, 2019.**

For the first time the International Congress Osteopathy Open will take place in Moscow. For three days, Russian capital will become capital of the world osteopathy.

The Congress will be dedicated to the issues of interdisciplinary interaction of osteopathic physicians and doctors of various specialties. Osteopathy, considering the human body as a whole, working with the body at the stage of pre-disease, and correcting functional alterations with the help of exclusively non-drug methods, has unique possibilities for prevention of different health problems, for maintenance and restoration of health.

For the first time leading specialists and doctors working in different fields of medicine will take part in the work of the congress. Participants of the Congress will discuss how osteopathic methods can be useful in practice of doctors of other specialties: general practitioners, pediatricians, obstetricians, gynecologists, neurologists, dentists and other specialists. Collaboration of specialists using different approaches in treatment will lead to health protection. World experience shows that together we can be more effective when helping patients presenting different health problems.

A number of important issues for modern medicine will be discussed at the congress:

- Interaction of Different Specialists in Treatment of Functional Disorders.
- Interdisciplinary Approach in Treatment of Neurological and Orthopedic patients. Rehabilitative Potential of Osteopathy.
- Functional Approaches in Rehabilitation of Children.
- Body and Emotion. Osteopathy and Psychotherapy.
- Approaches to Treatment of Functional Disorders of Internal Organs.
- Osteopathy, Dentistry and Speech Therapy. Ways of Interaction.
- Chinese Medicine, Reflex Therapy and Osteopathy.
- Biodynamic Approach in Osteopathy.
- Possibilities of Correction of Functional Metabolic Disorders. Homeopathy, Applied Kinesiology, Dietetics.

Congress programme:

June 14th

- plenary session of the International Congress Osteopathy Open 2019;
- scientific symposia, dedicated to the interdisciplinary collaboration of osteopathic physicians and doctors of various clinical specialties;

June 15th and 16th – scientific and practical workshops held by foreign osteopaths of world-wide reputation and renown Russian specialists.

We invite osteopaths, neurologists, pediatricians, general practitioners, neonatologists, obstetricians, gynecologists, specialists in sports medicine, manual therapists, trauma orthopedists, reflex therapists, dentists and doctors of other specialties to assist the congress.

Every year we try to make our guests receive the warmest impressions from the participation in Osteopathy Open. By tradition we have prepared a cultural program for the participants of the congress. You will get the possibility not only to improve your professional level, but also to have a wonderful time in the company of your colleagues.

Welcome to Osteopathy Open 2019!
Best regards, Organizing Committee of the Congress
